

### **Walking through time**

Explore Mumbai's streets and their stories and create your own unique walking tour to share these with others! Over the course of an intensive 10 session workshop organised by the Department of History, participants will discover and interpret Mumbai's histories and heritage for diverse audience groups, working in teams to research and conceptualise a new heritage walk route. The programme aims to encourage critical engagement with, and build rigorous understanding of, the theory and practice of creating and leading successful tours in the city of Mumbai.

#### **Programme Objectives:**

- At the conclusion of this intensive programme, students will have conceptualised, researched and led tours on themes of their choice
- They will have worked together successfully in teams to execute their ideas
- They will be comfortable communicating with and leading large groups of people
- They will be able to go ahead and build/lead further tours in future.

The programme will be facilitated by Alisha Sadikot, an independent museums and heritage professional working to instigate critical and creative public engagement with museum collections and heritage spaces in Mumbai. Her practice focuses on educational, family and other groups in the city. She worked as Curator, Education & Outreach, at the Dr. Bhau Daji Lad Mumbai City Museum from 2012 to 2015 where she developed and built the Museum's popular learning programme. Alisha has been leading heritage walks and visits in Mumbai for 11 years.
